Join us for a three-day workshop held at the beautiful Foxfire Museum & Heritage Center in the mountains of Northeast Georgia.

This workshop will provide hands-on opportunities to learn about the Foxfire Approach to teaching, and how to implement community-based learning in your own classroom. Open to all educators.

Foxfire Museum & Heritage Center
Mountain City, Georgia
www.foxfire.org
The Foxfire Approach to teaching and learning combines teacher guidance with student choice as a foundation for better learning. Foxfire is an approach to professional development for educators that stresses student choice and accountability for learning.

The workshop will cover history and theory behind the Approach, but will provide opportunities for educators to engage in community-based learning, and ways to incorporate experiential learning into the classroom.

The workshop will be held on Foxfire's outdoor museum campus. Lodging in renovated log cabins will be included in registration cost. All meals are included as well.

Questions? Call (706) 746-5828 or email asstcurator@foxfire.org

Early bird registration (by March 31): $250
Regular registration (after March 31): $300
Jan Buley teaches and learns in the Faculty of Education at Memorial University in St. John's Newfoundland. Jan is a passionate advocate for all things connected to literacies and the arts, and is especially interested in celebrating the voices of young or marginalized youth.

Kathy Thompson is a clinical professor of middle grades education at the University of Georgia. Her research focuses on the professional learning of teachers, experiential learning, and the education of young adolescents.

T.J. is Foxfire’s executive director and oversees the management of the Foxfire Museum and Heritage Center, The Foxfire Magazine, The Foxfire Approach to Teaching and Learning, and The Foxfire Book series.

Kami is Foxfire’s assistant curator and educational outreach coordinator. She is responsible for supporting and developing heritage and education-based projects at the Foxfire Museum and Heritage Center.
