

Make Your Own Yarn Doll

Materials:

- Yarn
- Scissors
- Cardboard

Instructions:

1. Cut a cardboard rectangle, about 4" x 6". Gather other materials.

2. Take one end of your yarn and, without cutting it, wrap it around the cardboard longwise about 30 times.

3. Cut the end of your yarn. Cut a piece of yarn about 3" long.
4. Take the short piece of yarn and lay it under your wrapped yarn. Tie a tight square knot.

5. Carefully cut the opposite end of your yarn.

6. Pinch and wrap all the yarn together, about 1" down from where you tied the other string. This will make the head. Tie tightly with string.

- Repeat the process for wrapping (step 2), but only wrap about 10 times. Carefully slide the looped yarn off, then tie off both ends like you did in step 6. These are the hands.

- Split the yarn on the body of the doll in half and slide the arms between. Tie a string underneath the arms with a tight square knot. This is the waist.

- Trim up any loose threads, or tie the skirt of the doll into two legs.
- Your doll is ready to play with!
